**BLANCO SERVISTAR**

The perfect plate stacking system with  
the innovative plate holder.

blancoservistar

Steplessly adjustable for any  
plate size up to 30 cm

Innovative plate holder  
with a soft-grip surface

High-quality stainless steel,  
welded to be rugged

## BLANCO SERVISTAR with the innovative plate holder: More space for working, less stress while serving.

The innovative BLANCO SERVISTAR plate stacking system provides space for gastronomic creativity, effective working and a relaxed path from the chef to the guest.

Because of its high-quality finishing "made in Germany" SERVISTAR has maximum stability which is convincing – even when completely loaded and on uneven floors.

With its plate holders, SERVISTAR has a gentle and secure grip on your porcelain under any conditions.

The SERVISTAR can be loaded easily and the plates can be removed quickly.

With SERVISTAR, there is a suitable model for any requirement, whether on castors for mobility, for wall mounting or as a carry unit.

**BLANCO SERVISTAR. So that everything runs like clockwork while arranging, transporting and serving.**

### **As gentle and secure as the human hand: The unique plate holder.**

There are forms which are only surpassed by their model. The SERVISTAR plate holder is based on the natural example of the human hand – strong and gentle at the same time.

Thanks to their unique form, the plate holders have a firm hand on the plates. The small extra thumb gives the plates additional stability and provides ideal balance in any position.

The plates rest on the plate holders in a soft and non-slip position due to the fine elastic soft-grip surface.

### **No clattering, no clinking, no problem:**

The unique SERVISTAR plate holders ensures that arranging, transporting and serving food is safe, quick and cost effective.

## Perfect in form and function: Strong assistants which look good.

The SERVISTAR is perfect for handling prepared food in extremely tight spaces. An example is the SERVISTAR GASTRO 80 – it only requires 0.5 m<sup>2</sup> for 80 plates.

There are nearly no limits to your creativity because each individual pair of plate holders carries up to 1 kg of weight. With 80 mm plate spacing, you can also give your imagination free rein while decorating.

Whether you choose the GASTRO with castors, the PORTABEL for carrying or the STATIC for wall mounting: with their elegant design, all of the SERVISTAR models even look good in the front area.

Quality "made by BLANCO" also means the highest level of service friendliness:

The plate holders can be reordered individually and replaced quickly and easily, which can save you a lot of time and energy if necessary.

**BLANCO SERVISTAR.**  
Considered by many professionals the best plate stacking system in the world.

**The height-adjustable push handle**  
(for SERVISTAR GASTRO only, optional)

The rugged push handle made of hygienic stainless steel is right there when you need it. And it can be removed as soon as it bothers you. It can be easily mounted and removed and simply adjusted for persons of all sizes.

# flatpack

**The SERVISTAR GASTRO is also available starting immediately in the space-saving Flat Pack.**

The choice is now yours for all SERVISTAR GASTRO models. Delivery is either fully-mounted and ready for use as usual, or you can select delivery in the

compact Flat Pack. With it, you can reduce your transport and storage costs. Simply specify the corresponding order number when placing your order.

**Perfectly packed, quickly mounted:** At BLANCO, the quality is also evident in the packing. All parts are stored clearly arranged and safe for transport with our clever

Flat Pack packing concept. You can assemble the SERVISTAR GASTRO yourself in a few steps in just seconds.

## Feel free to take a closer look: Convincing down to the smallest detail.

The unmistakable quality of the BLANCO brand is characterised by high quality materials, first-class finishing and sophisticated design.

And because that still doesn't suffice, BLANCO SERVISTAR features many well-thought-out details to make your daily work easier.

### More space for creative ideas

With its 80 mm plate spacing, SERVISTAR leaves you enough room for all your ideas while arranging food in an appetizing way.

### More stability in everyday life

The bend and twist-resistant stainless steel frames which are each permanently welded give the SERVISTAR its rugged strength so that you can manoeuvre safely even when the trolley is completely loaded.

### More safety under all conditions

The plate holders with a soft-grip surface ensure maximum safety during transport, even when traversing thresholds and uneven floors.

### More flexibility while serving

The plate holder rows can be steplessly adjusted to all plate sizes up to 30 cm, regardless of whether they are round or rectangular. The ergonomic adjusting screws and the clear scaling make it simple for you to set your SERVISTAR to the desired plate size.

There is a practical extra for the SERVISTAR models with four or six rows of plate holders. Two rows each (front and back) can be set to a different plate size – and thus two or three different plate sizes can be retained at once.
