Flav-R-Fresh®
Humidified Impulse
Display Cabinets

A profitable way to create impulse food sales is with the small Flav-R-Fresh® Holding and Display Cabinet. Using controlled moisturized heat allows you to showcase your product longer using minimum counter space.

- Full-view display with tempered glass sides and door
- Controlled heat and humidity for longer holding times
- Accommodates half-size sheet pans
- Revolving or stationary display racks
- Single- or reversible double-sided opening models
- Fluorescent lights illuminate the holding areas and emphasize the product

FDWD-2 with accessory 4-tier circle rack

Flav-R-Savor® Humidified Holding & Display Cabinets

Balancing a precise combination of heat and humidity, the Hatco Flav-R-Savor® Cabinets provide an attractive showcase for hot food displays and generate impulse sales. A complete range of cabinet sizes, door options and rack types allows for perfect merchandising of food products such as pizza, fried foods, bakery items, sandwiches and more.

- Full-view display with tempered glass sides and door provide maximum heat retention
- Controlled heat and humidity for longer holding times
- 3 liter (¾ gallon) stainless water reservoir provides all day moisture
- Low-water protection prevents heating element burnout and alerts operator to low-water condition

- Revolving or stationary display racks
- Available in two heights with single-sided or double-sided openings
- Fluorescent lights with clear plastic cover help showcase food product

FSD-1 with 3-tier circle rack and optional mechanical controls

FSDT-2 with 4-tier circle rack, 102 mm (4") legs, optional *Designer* Black color and accessory food pans

CONTROLLED MOISTURIZED HEAT KEEPS HOT FOODS FRESH LONGER Hatco's Flav-R-Savor® air flow pattern is designed to maintain consistent cabinet temperature without drying out foods. The precise combination of heat and humidity creates a "blanket" effect around the food. The air flow rate enables the cabinet to recover temperature rapidly after opening and closing the door.

Mini Vertical Warmer

Our answer to impulse point-of-sale demands. Hatco's patented Mini Vertical Warmer is small enough to set anywhere, keeping pre-packaged snacks warm, appealing and at your customer's fingertips. There's nothing better than a warm treat!

- Ability to connect up to eight (8) units side-by-side, while only utilizing one outlet connection
- Clear polycarbonate hinged cover lets you see product levels at a glance
- Adjustable thermostat on back of unit

- Accessory wall mount bracket saves on counter space and draws attention at eye level
- Great for merchandising warm snacks
- For pre-packaged, non-hazardous foods

Macho Nacho® Chip Warmers

Keep your nacho chips hot, fresh and crisp with Hatco's Macho Nacho® Chip Warmer. This highly-visible heated merchandiser circulates air to prevent the loss of natural oils, eliminating the need to frequently replace stale chips.

- Keeps chips hot, fresh and crisp longer, reducing refill time and minimizing waste
- Specialty cabinets to hold and/or merchandise bulk nacho chips
- Special ductwork forces dry heat through chips from the bottom up

- Special two-door access for easy loading and serving
- 11 kg or 18 kg (25 lb. or 40 lb.) capacity
- Shatter-resistant incandescent lights illuminate the holding areas and emphasize the product

Flav-R-Savor® Tall Humidified Holding Cabinets

The expanded capacity of Hatco's Tall Humidified Cabinets offers flexibility – giving customers more variety of menu items, and holding larger quantities of proven favorites ahead of peak serving periods. The universal slides of the FSHC-17W models will hold seventeen (17) sheet pans, or thirty-four (34) steam table pans. FSHC-12W models will hold twelve (12) sheet pans and twenty-four (24) steam table pans.

- Electronic controls with digital readout temperature range of 26°-93°C (80°-200°F) with precise heat and humidity settings assure uniform heating throughout the cabinet
- Using the lower temperature range of 26°-38°C (80°-100°F) allows perfect temperature for proofing all types of bread
- Lexan® or stainless steel doors, full height, half height and pass through available
- All stainless steel interior and exterior
- Fully insulated doors, sidewalls, base and top assist in heat retention and quick recovery
- Field reversible, right- or left-hand hinged doors with magnetic latch and heavy-duty plated hinges
- Fully welded tubular frame assures integrity of unit in any working environment

Flav-R-Savor® Heated Air Curtain Cabinets

The patented Flav-R-Savor® Heated Air Curtain Cabinet effectively and safely holds hot food hot without the use of doors, allowing immediate access to product. Warm air at the front of the cabinet is forced downward, through the ducts above the opening, forming a "curtain" of heated air. A portion of the heated air is drawn toward the rear of the cabinet, warming each pan.

- Perfect for holding wrapped or sealed product like tortillas, burritos and ribs, as well as product on sheet pans like biscuits, hamburger patties and baked potatoes or fried foods in pans
- Available in 2-pan and 3-pan models, single opening or pass-through, with or without humidity
- Standard units hold one half-size sheet pan per shelf, and the 2-pan pass-through accommodates two full-size sheet pans
- Easy to use digital controls, a lighted On/Off switch and a 6' cord & plug set

Water Quality Requirements

Water supply in excess of 3.0 grains of hardness per gallon (GPG) must be treated and softened before being used. Water containing over 3.0 GPG will decrease the efficiency and reduce the operating life of the unit.

NOTE: Product failure caused by liming or sediment buildup is not covered under warranty.
